Subject: PP RTCs comments from NDEP
20170208 RTC PP OU-8 Draft Responses final v2 jg.docx

.....
>>>>>
Hi,

Attached are comments that I have made to the proposed responses.
Great job to CB&I for consolidating and augmenting previous responses.

I started with the version that Dave Davis provided on Monday.
I am unsure how my comments and edits will appear due to working partly from home computer, and partly from work; they may appear as two sets of comments. Hopefully all are clear and numbered sequentially.

A few of Dave's comments I commented on, particularly where we are responding to ARC comments. A few of those comments will require a call, at least between Dave, Dante and I to discuss our collaborative approach for these responses, before we can finalize this version and hand off to CB&I, and on to our Section Chiefs and legal teams for review.

I would suggest the three of us find time in our schedules tomorrow or next Monday to make this call. I am generally open tomorrow, except for our scheduled call with ARC tomorrow afternoon, and then again on Monday from 10 am to 3 pm.

Thanks,
Jeryl

Subject: RE: SharePoint Site Chronology

Hi Dave,

Yes, please contact Tetra Tech to inquire about that. Thanks!

Subject: SharePoint Site Chronology

The best way to add the chronology of the documents on the SharePoint site is from a listing of the documents from the former Tetra Tech hosted site. A database listing the documents that had all of the dates could be used to add information to each document in the current data base, and it would not be too great an effort. If a database listing does not exist, then this effort becomes substantial, because every document will need to be opened to determine the date. Please let me know if you have such a database listing or if it is OK for me to contact Sucheta at Tetra Tech to see if she has a database listing.
